DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Mine, U.S. Patent Publication No. 2002/0006786.

Regarding claim 1, Mine discloses a first device for delivering a service using an application lodged in a portable object, comprising: a portable object reader for receiving said portable object, the portable object incorporating at least one application and the first device including resources for activating said application, comprising relay means arranged for performing a communication between said portable object reader and a second device external to said first device and connected thereto so that the second device activates at least one application of the portable object independently of said resources (0009-0012, 0027, 0028, 0051; figures 1-3).

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
